Unlock the Future of Animal Care with the NM Vet Series.

Modular Design for Unparalleled Versatility

The NM Vet Series boasts a groundbreaking plug-and-play design featuring two expandable slots. Elevate your monitoring capabilities by seamlessly incorporating high-end parameter modules such as IBP, EtCO₂ and AG. Experience the freedom to customize and adapt to evolving veterinary needs.

Intuitive UI and Capacitive Touchscreen

Navigate effortlessly through the monitor's functions with our state-of-the-art user interface and capacitive touchscreen. The redesigned user experience ensures sensitivity in operation, providing clear and concise information at your fingertips. Stay in control with a display that sets a new standard in clarity.

Modular Design for Unparalleled Versatility

Precision meets purpose with Comen's specialized NIBP and SpO₂ algorithms, exclusively crafted for our four-legged companions. Choose from a range of technology options, including Suntech NIBP, Nellcor SpO₂, and Masimo SpO₂, to tailor your monitoring experience to the unique needs of each animal. Elevate the standard of care with accurate and reliable data.

Experience the Future of Veterinary Monitoring with NM Vet Series

NIBP

Specially crafted for animals, our advanced algorithm has undergone rigorous clinical testing. Experience swift and precise measurement results, ensuring accurate monitoring tailored to the physiology of your patients.

SpO₂

Unrivalled performance in low perfusion and motion-prone scenarios, guaranteeing the utmost accuracy in measurements.

ECG

Support for multi-lead analysis and intelligent lead disconnection monitoring, ensuring stability in measurements.

NM Vet Series is not just a monitor, it's a commitment to excellence in animal healthcare. Embrace innovation, enhance your workflow, and ensure the well-being of your patients with a monitor designed to meet the demands of modern veterinary medicine.
