BetterWrap™

- Eco-friendly wrap made from biodegradable, plant-based materials and a 100% recycled core
- Self-adhering design, scissors recommended but not required, and won't stick to fur or skin
- Delivers secure, consistent compression for wounds and injuries
- Offered in 4" rolls with primary colors and 2" rolls with bright neon shades
- Designed for veterinary use on dogs, cats, and small animals

BetterWrap™ is a biodegradable, plant-based cohesive bandage wrap designed specifically for veterinary use. It delivers strong, flexible compression and stays securely in place without sticking to fur or skin. Ideal for use as a vet wrap, gauze wrap, or elastic bandage wrap, it supports wound care, post-operative recovery, and orthopedic stabilization. BetterWrap™ comes in 4-inch rolls in primary colors and 2-inch rolls in neon colors to meet a variety of clinical needs. This sustainable alternative to traditional bandages and wraps is safe for use on dogs, cats, and small animals.
