OPS™ Ultimate

The intelligent gown with breathable membrane technology

- High performance across the entire gown & fully impervious to blood borne pathogens (AAMI** PB70, ASTM F1671 tested, EN13795)
- Gown is made of 60 gsm trilaminate material
- Breathable and cool - reacts to increasing body temperature by increasing water vapour transmission
- Recommended for all procedures where breathable all-over protection is needed such as long cardio, orthopaedic, transplant surgeries, etc

Item.	Item Description	Qty/Case

Item No.	Item Description	Qty/Case
DYNJPE2301P	Impervious OR Gown, Prevention Plus, L, 114cm	24
DYNJPE2302P	Impervious OR Gown, Prevention Plus, XL, 142cm	24

*The EN 13795 is the European harmonized standard specifying requirements for single-use and reusable covering (i.e. surgical gowns, surgical drapes) used as medical devices for patients, clinical staff and equipment and intended to prevent the transmission of infective agents between patients and clinical staff during invasive surgical procedures.
 **AAMI: Association for the Advancement of Medical Instrumentation. The AAMI PB70 is the US reference standard establishing a system of classification for protective apparel and drapes based on their liquid barrier performance and specifies related labeling requirements and standardized test methods.
