

ProntoVet®

The premium quality irrigation solution specifically for veterinary medicine

Wound Irrigation Solution and Antiseptic

Only a clean wound can heal.

The patented ProntoVet® formulation of polihexanide and betaine cleans the wound and gently removes biofilm.

ProntoVet® is non-irritating and pain-free, very well tolerated by skin and mucous membranes, and acts without restriction in the presence of blood and protein.

- Sterile
- Colorless
- Ready for use
- Can be used for 8 weeks after opening*
- Practical cap with sealing pin
- Gel consistency prevents flow off from the target location (ProntoVet® Gel)

* at room temperature

Indications

- Irrigation of wounds and wound cavities of all types
- Gentle to tissue and pain-free removal of crusted dressings
- Moistening of dressings
- Long lasting, moist wound covering (ProntoVet® Gel)
