

Since 1984, VETINOX has developed a strong know-how in the manufacturing of stainless-steel vet equipment. From this long expertise comes a comprehensive range of stainless-steel cages which is entirely manufactured in our factory in France from the finest components to meet the highest standards with the comfort of patients in mind.

VETINOX standard stainless-steel cages come in 5 different sizes (A, B, C, D and E), they are modular, stackable, and available either with a stainless-steel grid or a glass door (with or without oxygen hole).

VETINOX stainless-steel cages are slightly tilted forwards and feature the specially designed VETINOX tray for the collection of the patient's fluids. This eases daily work and helps keeping the clinic clean and tidy.

Stainless-steel cages are delivered with gratings as a standard but can also be combined with CliniCare bed sore prevention mattresses.

STAINLESS STEEL CAGE A, B, C, D, E

CI20000

VETINOX stainless-steel cages concentrate all VETINOX's expertise: qualitative, sturdy, spacious and comfortable to ensure patients enjoy a quiet stay. We have also designed different accessories like lamp supports, I.V. holders, card holders and medication trays in different sizes and shapes that perfectly fit onto our cages.

VETINOX cages are also available with glass doors (with or without oxygen hole) which offer great visibility on patients. C cages are delivered without partition.

ITEM	OUTSIDE DIMENSIONS (mm)			INSIDE DIMENSIONS (mm)		
	Width	Depth	Height	Width	Depth	Height
Cage A	468	510	510	408	510	410
Cage B	702	690	743	642	690	643
Cage C	1405	690	830	1345	690	730
Cage D	505	590	550	445	590	450
Cage E	1010	690	998	950	690	898

CAGE SETS

With VETINOX cages you will save time and money on your installations, as combining and stacking our stainless-steel cages has never been easier: you just plug the cages to one another with the connectors. VETINOX has created set cage combinations which we recommend installing on one of our convenient mobile platforms: with easy access to patients, cages move freely for easy cleaning or reorganization purposes.
