# ⑤ reasons to choose **VETINOX** EQUIPEMENT VETERINAIRE

## ① Go for quality

Since 1984 VETINOX has been specialized in the design and manufacture of cages from the finest raw materials that meet the highest quality standards for the daily comfort of the patients.

## ② Save time & money on installations

Thanks to VETINOX's **smart connector system**, installing, combining, and stacking cages has never been easier: you just plug the cages to one another.

## ③ Clean & tidy environment

Both VETINOX stainless-steel and polyester cages feature the specially designed VETINOX **tray to collect the patient's fluids**: as cages are slightly tilted forwards, fluids automatically flow into the tray to ease cleaning.

## ④ Widest range on the market

As a standard, VETINOX manufactures **3 types of cages** (stainless steel / polyester / cat friendly) which can be personalized with stainless steel or glass doors and numerous accessories to make it your very own cage.

## ⑤ Tailored to your requirements

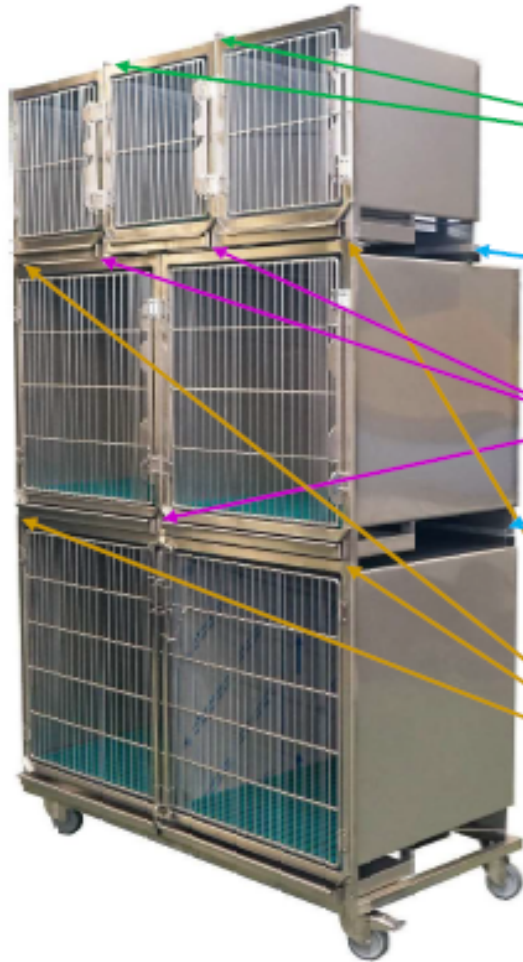

Don't worry if you haven't found what you're looking for despite our wide portfolio, as VETINOX also **manufactures** its stainless-steel cages **to measure**.
